

NEW CARDIAC EVENT

Complete this form if the patient reports a myocardial infarction has occurred, *susp.*, a myocardial infarction has occurred, is hospitalized for chest pain suspected to be of cardiac origin during hospitalization for another reason. Include MI's where death has occurred. Send this report to the Coordinating Center along with the documenting ECG's. ECG leads should be numbered. The ECG's should have the patient's name removed and BHAT label should be affixed.

1. Patient ID 4 5 6 7 8 9 10 11 12 4 EDIT STATUS 19, 20 8 DATE RECEIVED 29-34
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20
 2. Acrostic 13, 14, 15, 16, 17, 18 5 BATCH NUMBER 21-28 9 UPDATE NUMBER 35-37
 3. Date form completed 11 44 45 46 47 48 49
 4. Date of onset of symptoms of the reported event 12 50 51 52 53 54 55
 5. Number of 12-lead ECG's being submitted to the Coordinating Center 13 56 57
 6. If answer is "00", specify reason: 58 14 P 0/1

6. Was the patient taking any of the following medications at the time of the event?
 a. Digitalis 59 45 1 YES 2 NO 3 DK 4
 b. Quinidine and/or Procainamide 60 46
 c. Diuretics 61 47
 d. Potassium 62 48

7a. Was the patient hospitalized for or during the event? 63 49 1 YES 2 NO 3 DK 4
 b. Date of Hospitalization 20 64 65 66 67 68 69
 Hospitalization form must be completed

8. Did any of the following complications occur with the event?
 a. Cardiogenic shock (oliguria and systolic BP <90 mm Hg) 70 21 1 YES 2 NO 3 DK 4
 b. Persistent hypotension (<90 mm Hg for one hour or more) 71 22
 c. Incomplete A-V block 72 23
 d. Complete A-V block 73 24
 e. Ventricular tachycardia (3 or more successive VPB's) 74 25
 f. Ventricular fibrillation or flutter 75 26
 g. Congestive heart failure 76 27
 h. New onset of atrial fibrillation or flutter, 77 28
 i. Death 78 29
 Complete Death Notification and Cause of Death forms

9. Were serum enzymes measured? 79 30 1 YES, information recorded 2 YES, no enzyme information can be obtained 3 NO
 After recording reason SKIP to 80 31 P 0/1
 Record any changes in BHAT medication on Follow-up Drug Section.
