

BETA BLOCKER HEART ATTACK TRIAL
PATIENT CLOSEOUT VISIT QUESTIONNAIRE

1
1,2,3

The BHAT Study Group would appreciate your cooperation in obtaining some additional information at this final visit.

Your response to these questions will be strictly confidential. We have provided you with a self-addressed, pre-stamped envelope for you to use after completing the questionnaire.

We have appreciated your continued participation in the trial. Thank you for your assistance in obtaining this additional information.

The BHAT Research Study Group

1. BHAT Identification Number:

2 3 4
4,5 6,7,8,9,10 11,12

2. Patient Acrostic:

5
13,14,15,16,17,18

3. Date Form Completed

11
44 45 46 47 48 49
month day year

4. What treatment do you think you were prescribed in this study?

- 12 50
- 1 I am certain I was prescribed propranolol
 - 2 I think I was probably prescribed propranolol
 - 3 I have absolutely no idea which medication I was assigned
 - 4 I think I was probably prescribed placebo
 - 5 I am certain I was prescribed placebo

5. If you answered Question 4 as "I have absolutely no idea which medication I was assigned", which medication assignment would you guess?

- 1 propranolol 2 placebo

6. What was the major reason you agreed to participate in the BHAT Study, when you first joined? (Please check only THE MOST IMPORTANT REASON.)

- 14 52-53
- 1 I wanted to make a contribution to medical science
 - 2 I wanted to do something for other people
 - 3 I wanted the extra medical check-ups
 - 4 I wanted a new experience; something out of the ordinary
 - 5 I was attracted by the free medical care, laboratory tests, and electrocardiograms (ECGs)
