COHORT: Original

TIME INTERVAL: Exam 29

DATASET NAME: e_exam_ex29_0_0210d

Variables that define a unique record: PID.

The following variables found on the data collection form have been excluded from this dataset. They can be found in separate datasets. Refer to the annotated form for variable names and page numbers:
FV009, date of this FHS exam, page MD01 (use most recent exam dates dataset).
FV015-FV018, Medical History - Prescription and Non-Prescription Medications, pages MD03-MD04 (use corresponding medications dataset)
FV325-FV350, Cognitive Function - Mini-Mental State Exam, pages TECH05-TECH06 (use corresponding MMSE dataset)

The following variables found on the data collection form have been excluded from this dataset. They are used for administrative purposes only:
FV267-FV286, Procedures Sheet, Adverse Events and Exit Interview, page TECH02
FV551-FV574, FV577 and FV578 Referral Tracking, page TECH12-TECH23

See the accompanying protocol and annotated data collection form for additional information regarding the variables. The data collection form has a hierarchical pattern with regard to some questions. Refer to "e_exam_ex29_0_0210_annotated_form.pdf" file to get a full understanding of the hierarchical layout of questions and variables.

Throughout the coding manual there are variable level notes that identify related variables. In most cases, if first variable of the grouping is negative, and the variables following were not answered (due to skip pattern) then the variables following have been set to negative unless otherwise noted.

When a participant was noted as having a cognitive status that may make the questions answered unreliable (FV438 = 8), the following variables/questions were set to unknown:
Tech 8: Instrumental Activities of Daily Living (Lawton IADL) (FV364-FV374)
Tech 13: Health Care Preferences Questionnaire (FV438-FV464)
Tech 14: Health Care Preferences Questionnaire (FV465-FV471)
Tech 15: Health Care Preferences Questionnaire (FV472-FV480)
Tech 17: Berkman Social Network Questionnaire. Tech administered (FV498-FV503)
Tech 18: Berkman Social Network Questionnaire. Tech administered (FV504-FV509)
Tech 19: Leisure Time Cognitive and Physical Activities (FV511-FV518)
Tech 20: CES-D Scale (FV520-FV539). See the Exam 30 protocol for further discussion on this topic.

This dataset is a modified version of the original dataset. Some observations were deleted due to consent restrictions. This coding manual is based on the original dataset. Therefore the value ranges, number of observations and/or cohorts found in the modified dataset, may differ from those stated in this manual.
