PART – C: PHYSICAL ACTIVITY (International Physical Activity Questionnaire – short)
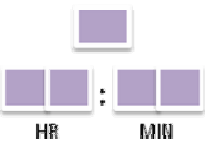

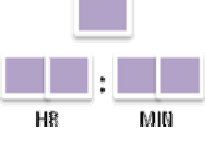

We are interested in finding out about the kinds of physical activities that people do as part of their everyday lives. I am going to ask you about the time you spent being physically active in the <u>usual 7 days of a week</u>. Please answer each question even if you do not consider yourself to be an active person. Think about the activities you do at work, as part of your house and yard work, to get from place to place, and in your spare time for recreation, exercise or sport.

Now, think about all the *vigorous* activities that you did in a usual 7 days. Vigorous activities make you <u>breathe much harder than normal</u> and may include heavy lifting, digging, aerobics, or fast bicycling. Think only about those physical activities that you do for <u>at least 10 minutes</u> at a time.

| 1. During **a usual 7 days**, on how many days did you do **vigorous** physical activities? pa_vigact [int(1)]

pa_vigact_days [int(2)] | Days per week = 1
Refused (go to Q.3) = 2
Don't Know/Not Sure (go to 3) = 3
Don't do any activity (go to 3) = 4 | |
| 2. How much time did you usually spend doing **vigorous** physical activities on one of those days? Think only about those physical activities you do for at least 10 minutes at a time. pa_vigact_time [int(1)]
pa_vigacttime_hr [int(4)]   pa_vigacttime_min [int(4)] | Hours/ Minutes per day = 1
Refused (go to Q.2a) = 2
Don't Know/Not Sure (go to 2a) = 3 | HR   MIN |

| 2a. **Interviewer probe:** If the respondent can't answer because the pattern of time spent varies widely from day to day, say, "I am interested in the average time for one of the days on which you do vigorous activity. Can you tell me how much time in total would you spend **over a usual 7 days** doing vigorous physical activities?" | Hours/ Minutes per day = 1

Don't Know/Not Sure = 3

HR   MIN |

Now think about activities which take *moderate physical effort* that you did in a usual 7 days. Moderate physical activities make you breathe somewhat harder than normal. Do not include walking. Again, think about only those physical activities that you did for at least 10 minutes at a time.

3. During a **usual 7 days**, on how many days did you do **moderate** physical activities for at least 10 minutes? Examples: carrying loads, bicycling at a regular pace, tennis, badminton, cricket, hand washing clothes, sweeping the floor, gardening, taking care of children less than three years old, washing cars, motorcycles, or scooters, walking home while carrying vegetables and groceries from market, climbing stairs (three floors or more), and grinding chutney on stone. 4a. **Interviewer probe**: If the respondent can't answer because the pattern of time spent varies widely from day to day, or includes time spent in multiple jobs, say, "I am interested in the average time for one of the days on which you do moderate activity. Can you tell me what is the total amount of time you spent over a **usual 7 days** doing moderate physical activities?"	Hours/ Minutes per day=1 pa_ip_modact [int(1)] Refused = 2 Don't Know/Not Sure = 3 pa_ip_modact_hr [int(4)] pa_ip_modact_min [int(4)]	☐ : ☐☐ : ☐☐ HR MIN

Now think about the time you spent walking in a usual 7 days. This includes at work and at home, walking to travel from place to place. Also include any walking that you do solely for recreation, sport, exercise, or leisure, for example, walking to the bus stop, to workplace, to the market for at least 10 minutes.

5. During a **usual 7 days**, on how many days did you **walk** for at least 10 minutes at a time? Think only about the walking that you do for at least 10 minutes at a time. Now think about the time you spent sitting on week days during a usual 7 days. Include time spent at work, at home, while doing course work, and during leisure time. This may include time spent sitting at a desk, visiting friends, reading or sitting or lying down to watch television, cutting vegetables, sewing and knitting, or time spent in teaching children, performing religious prayers, chatting with friends, talking on the phone, or working in front of the computer.

7. During a usual 7 days, how much time did you usually spend *sitting* on a **weekday**? Include time spent lying down (awake) as well as sitting. (*Exclude sleeping at night*) pa_sit_wkday [int(1)] pa_sit_wkday_hr [int(4)] pa_sit_wkday_min [int(4)]	Hours/ Minutes per week day (go to Q. 8)=1 Refused (go to Q. 7a) = 2 Don't Know/Not Sure(go to Q7a) = 3	HR : MIN
