INSTRUCTIONS: This form should be completed during the participant's clinic visit. ID Number, Contact Year, and Name must be entered above. Whenever numerical responses are required, enter the number so that the last digit appears in the rightmost box. Enter leading zeroes where necessary to fill all boxes. If a number is entered incorrectly, mark through the incorrect entry with an "X". Code the correct entry clearly above the incorrect entry. For "multiple choice" and "yes/no" type questions, circle the letter corresponding to the most appropriate response. If a letter is circled incorrectly, mark through it with an "X" and circle the correct response.

"You will have blood pressures checked in your arms and legs. The method used to do this is similar to standard blood pressure measures. An ultrasound device will be used allowing you to hear the blood flow while the blood pressure is taken. There is no more discomfort involved beyond having a blood pressure cuff placed on your arms and ankles."

32. [SHOW RC #6] Now, think of a ladder with 10 steps representing where people stand in the United States. At step 10 are the people who are the best off—those who have the most money, the most education and the most respected jobs. At step 1 are the people who are the worst off--who have the least money, least education, and the worst jobs or no job. The higher up you are on this ladder, the closer you are to the people at the very top, and the lower you are, the closer you are to the people at the very bottom. Where would you place yourself on this ladder? Tell me a number that represents where you think you stand at this point in time relative to other people in the United States.
