St George's Respiratory Questionnaire

This questionnaire is designed to help us learn much more about how your breathing is troubling you and how it affects your life. We are using it to find out which aspects of your illness cause you the most problems, rather than what the doctors and nurses think your problems are.

Please read the instructions carefully and ask if you do not understand anything. Do not spend too long deciding about your answers.

Before completing the questionnaire:

Please check one box to show how you describe your current health: SGRQ.CUR HLTH

Please read the instructions carefully and ask if you do not understand anything. Do not spend too long deciding about your answers.

Before completing the questionnaire:

Please check one box to show how you describe your current health: SGRQ.CUR HLTH

St George's Respiratory Questionnaire

This questionnaire is designed to help us learn much more about how your breathing is troubling you and how it affects your life. We are using it to find out which aspects of your illness cause you the most problems, rather than what the doctors and nurses think your problems are.

Please read the instructions carefully and ask if you do not understand anything. Do not spend too long deciding about your answers.

Before completing the questionnaire:

Please check one box to show how you describe your current health:
